Trans. of Teploenergetika (USSR) 1958, v. 5, no. 2, p. 63-69.

Several materials were subjected to erosive wear by a flow of water through a slit. The erosion resistance of investigated materials is compared with that of steel E Ya 1 T. Factors influencing the wear of materials are considered and recommendations are given for the choice of materials for particular armature parts as well as for feeding pumps. (Translator)
